EMPLOYMENT / INTERNSHIP

Enterprise TMS Project · System Analyst	2026
Hunnu Air LLC · Хүннү Эйр ХХК · Web Development	June 2025 - July 2025
- Developed a document-tracking web system used to record which employees had viewed mandatory company documents. - Implemented employee document view-status recording, replacing manual tracking with a centralized log.	

PROJECTS

Smart Zud Risk & Winter Camp Rental System · Full-stack Development	University / Diploma Project
- Built a full-stack web system combining geographic, weather, livestock and dzud (harsh winter) risk factors for winter camp rental and risk assessment. - Connected a Next.js / React 19 frontend to a NestJS REST API backed by PostgreSQL via Prisma, integrated with a separate Python / Flask machine-learning risk-assessment module. - ML component used Random Forest, Gradient Boosting and Logistic Regression models, with features such as a winter cold-severity index and cumulative snowfall as inputs. - Won 3rd place as a team at the MYIC MKYT Hackathon, National University of Mongolia (2026).	
<i>Next.js, React 19, NestJS, Node.js, PostgreSQL, Prisma, Python, Flask, JWT, REST API, Leaflet, Chart.js</i>	
Mungun Urlal · Backend Development	Backend Development Project
- Built a Java / Spring Boot backend that unifies a multi-stage production-to-sale distribution workflow — production, shipment to provincial resellers, receipt confirmation and sales reporting — into a single system, replacing manual Excel-based record-keeping. - Designed User and UserRole models, a repository layer, and JWT authentication with admin initialization. - Used Flyway to manage database migrations for the PostgreSQL schema.	
<i>Java 17, Spring Boot, PostgreSQL, Flyway, JWT</i>	
AF Shop · E-commerce Web Application	afshop.mn
- Built and deployed a live online clothing / retail store end-to-end with a React / Next.js / Tailwind CSS frontend, supporting guest checkout, admin functionality and product management. - Used MongoDB Atlas for the database and Cloudinary for image/media management; deployed with Vercel and Render.	
<i>React, Next.js, Tailwind CSS, MongoDB Atlas, Cloudinary, Render, Vercel afshop.mn</i>	

SKILLS

Languages: TypeScript, JavaScript, Java, Python, Kotlin, C#, C++, SQL	Frontend: React, Next.js, Tailwind CSS, HTML, CSS	Backend: Node.js, NestJS, Spring Boot, REST API, Flask
Databases: PostgreSQL, MySQL, MongoDB	Mobile: Flutter, Kotlin / Android	Tools: Git, Postman, Swagger, Figma, AWS, Prisma, Flyway

CERTIFICATIONS

NDG Linux Essentials — Cisco Networking Academy	2024
